Summary

Passionate and driven AI Engineer, currently in my third year of college, with a strong focus on becoming an LLM Engineer. Eager to apply my growing expertise in building and fine-tuning large language models to create innovative and impactful AI solutions.

Skills

Python

PyTorch

TensorFlow

Scikit-learn

Natural Language Processing

Machine Learning

Prompt Engineering

Education

AI Engineering

AI Ain University | Expected Graduation: 2027

Projects

Small Language Model

This project explores the world of Small Language Models (SLMs). While Large Language Models (LLMs) are powerful, their size can be a limitation. I developed this SLM to efficiently handle smaller-scale tasks, such as powering a simple chatbot or a virtual assistant.
